

January 28, 1973

Director of Motor Vehicles shall adopt such rules and regulations as may be necessary to carry out the provisions of this act." Signed, Senator Stromer.

SPEAKER: Senator Stromer.

SENATOR STROMER: OK, the original intention when we in the committee inserted the material that we did with our amendment #5 was not to entirely strike all of the material where we give the power to the or where we give the authority to the Motor Vehicles Department to establish the rules and regulations governing this and in setting it up. And so, therefore, this is what we'd be putting back in. This was in the original bill but through our committee amendments we did actually strike it out so I am asking for the one sentence here to be put back in. For an explanation, our--the original section #7 included an advisory committee and it was through some of the--the cooperation of some of the County Treasurers when we were doing the writing of this this fall, this last fall, that they thought this might be an appropriate method to take. But it was then concluded with their advise and with the advise of the Motor Vehicle Department that we did not need the Advisory Committee. So, this is the information of that particular change. So I would move, then, the adoption of the amendment that I have on the clerk's desk.

SPEAKER: Very good. The chair recognizes Senator Fred Carstens. Senator Carstens, did you wish to speak on the amendment? Very good, thank you. Senator Keyes, did you wish to speak on the amendment? Senator Nore, did you wish to speak on this particular amendment.

SENATOR NORE: I don't--I think I understand the amendment.

SPEAKER: Hold the microphone close.

SENATOR NORE: Mr. Chairman, I'd like to ask Senator Stromer some questions. What is the physical impact going to be on the County Treasurers and the county offices of the counties. Personally, I think when we implement this we are going to find in our counties out in my district are going to be loaded down with a lot of extra expense and our taxes are already pretty high. As I visited some of the county treasurers, I don't think they are in favor of this. But we have passed a bill like this in the past before and they got in to a great hassle. One time they moved the equipment, the photographic equipment, into the state house here and there was a fight between two different companies and finally they give it up. It is almost impossible, and the county treasurers are very, very skeptical about this kind of a piece of legislation and it's going to--they are already being loaded down with too much work, too much red tape, and too much supporting and it's getting almost like our public schools, the administrative people. They have very little time to administrate the school. They have to make the reports. They spend most of their time making reports. It's very, very expensive.

SPEAKER: Is there any further discussion of Senator Stromer's motion. The question is shall the Stromer's amendment #1 to LB 128 be adopted. All those in favor say aye, those opposed say no. So ordered, the amendment is adopted.

CLERK: Mr. President, I have a motion, no, I have two motions.

SPEAKER: Read the motions. Well, the chair is in a delicate position here. We have a motion to indefinitely postpone LB 128 which seems like that could take more time than we have now. We also have a motion to adjourn, and I think I'll take the motion to adjourn. Is there any further business?

CLERK: Yes, Mr. President. Mr. President your enrolling clerk reports--Read. Mr. President, the notice of committee hearings.  
Read. Read title. LB 302
